Information Security Handbook

Nova Demo Company. Synthetic training document. These are fictional rules.

Standard SEC-204 requires every employee password to contain at least fourteen characters.

Passwords must be changed immediately if the IT service desk reports a suspected compromise.

Multi-factor authentication is mandatory for the VPN and for the employee portal.

Report a lost badge to Facilities and a lost laptop to the IT service desk without delay.

Incident handling

A suspected security incident must be reported to the security hotline on extension 5500.

Do not forward suspicious emails; use the report-phishing button in the mail client instead.

Removable storage devices may be used only after IT has scanned them for malware.

The security team reviews every reported incident within one business day.
